The board supports economic development in Iowa. Purchases by the school district will be made in Iowa for Iowa goods and services from a locally-owned business located within the school district or from an Iowa-based company which offers these goods or services if the cost and other considerations are relatively equal and they meet the required specifications.

Prior to August 15 of each year and after analyzing the school district's anticipated procurement level for the current fiscal year, the school board shall set a goal of ten percent of the anticipated procurement level to be purchased from certified targeted small businesses. In determining the procurement level, the cost of utilities (heat, electricity, telephone and natural gas) and employees' costs shall not be included. After the goal has been established, the superintendent shall file the required Targeted Small Business Procurement form with the Department of Education by August 15.

By July 31 of each year, the superintendent shall file a report with the Department of Education outlining purchases of goods and services from targeted small businesses for the previous fiscal year.

The school board and superintendent shall encourage targeted small businesses which are not certified with the Department of Inspections and Appeals to become certified targeted small businesses.

The superintendent shall have the authority to authorize purchases without competitive bids for goods and services costing under $10,000 without prior board approval. For goods and services costing more than $10,000 and less than $25,000, the superintendent shall receive quotes of the goods and services to be purchased prior to approval of the board. Competitive sealed bids are required for purchases, other than emergency purchases, for goods and services that cost $25,000 or more, including construction contracts and school buses.

The purchase will be made from the lowest responsible bidder based upon total cost considerations including, but not limited to, the cost of the goods and services being purchased, availability of service and/or repair, delivery date, the targeted small business procurement goal and other factors deemed relevant by the board.

STUDENT SCHOOL TRANSPORTATION ELIGIBILITY

Elementary, middle and high school students living outside the corporate limits of Rockford shall be entitled to transportation to and from their attendance center at the expense of the school district.

Transportation of students who require special education services shall generally be provided as for other students, when appropriate. Specialized transportation of a student to and from a special education instructional service is a function of that service and, therefore, an appropriate expenditure of special education instructional funds generated through the weighting plan.

Transportation of a student to and from a special education support service is a function of that service, and shall be specified in the individualized education program or the individualized family service plan (IFSP). When the IEP team determines that unique transportation arrangements are required and the arrangements are specified in the IEP or IFSP, the school district will provide one or more of the following transportation arrangements for instructional services and the AEA for support services:

- Transportation from the student's residence to the location of the special education and back to the student's residence, or child care placement for students below the age of six.

- Special assistance or adaptations in getting the student to and from and on and off the vehicle, en route to and from the special education.

- Reimbursement of the actual costs of transportation when by mutual agreement the parents provide transportation for the student to and from the special education.

The school district is not required to provide reimbursement to parents who elect to provide transportation in lieu of agency-provided transportation.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It shall be within the discretion of the board to determine such conditions. Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Parents, who transport their children at the expense of the school district, shall be reimbursed at the rate per mile set by the state.

Transportation arrangements made by agreement with a neighboring school district shall follow the terms of the agreement. Students, who choose to attend a school in a school district other than their resident school district, shall provide transportation to and from the school at their own expense.

STUDENT CONDUCT ON SCHOOL TRANSPORTATION

Students utilizing school transportation shall conduct themselves in an orderly manner fitting to their age level and maturity with mutual respect and consideration for the rights of the school vehicle driver and the other passengers. Students who fail to behave in an orderly manner will be subject to disciplinary measures.

The driver shall have the authority to maintain order on the school vehicle. It shall be the responsibility of the driver to report misconduct to the building administrator.

The board supports the use of video cameras on school buses used for transportation to and from school as well as for field trips, curricular or extracurricular events. The videotapes are student records subject to school district confidentiality, board policy and administrative regulations.

After two warnings for bad conduct, the building principal shall have the authority to suspend transportation privileges of the student or impose other appropriate discipline**. If in the opinion of the school administration, a single incident of behavior is severe enough (threatening students/driver), transportation may be suspended immediately for up to 10 days.**

It shall be the responsibility of the superintendent, in conjunction with the building principal, to develop administrative regulations regarding student conduct and discipline when utilizing school district transportation.

The board has sole discretion to determine the method to be utilized for transporting nonresident and nonpublic students. Nonresident students paying tuition may be, and resident students attending a nonpublic school accredited by the State Department of Education will be, transported on an established public school vehicle route as long as such transportation does not interfere with resident public students' transportation. Parents of resident students who provide transportation for their children attending a nonpublic school accredited by the Iowa Department of Education will be reimbursed at the established state rate. This reimbursement shall be paid only if the school district receives the funds from the state. If less than the amount of funds necessary to fully reimburse parents of the nonpublic students is received by the school district, the funds shall be prorated.

The charge to the nonresident students shall be determined based on the students' pro rata share of the actual costs for transportation. The parents of these students shall be billed for the student's share of the actual costs of transportation. The billing shall be according to the schedule developed by the superintendent. It shall be the responsibility of the superintendent to determine the amount to be charged and report it to the board secretary for billing.

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Other drivers and students will be notified by commercial radio when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.
